Considerations

• This product is our shop favorite. It is stunningly beautiful in person.

• Fades and changes color over time.

• Sort this product by tone on each wall section when installing for a more uniform appearance.

• Soot residue, caking, and erosion is unavoidable and will cause the finish to blemish, especially along board edges. This is a natural characteristic of this product.

Patina Scale

The Patina Scale is general guidance and every project weathers at a different rate according to local conditions. Nakamoto Forestry therefore makes no guarantees or warranties, expressly or implied, of siding appearance after installation.

Wood Grade
Select

JAS "Small Knot" grade allows for up to 20 tight or 10 dead knots per 79" (2m) board length. Unlimited combination of heartwood and sapwood, pith allowed. Checks allowed to 1/16" as long as plank stability, weather-resistance, and cosmetics are not adversely affected.

Premium Clear

Premium Clear grade allows for up to 4 tight or 3 dead pinhole knots per 79" (2m) board length. Unlimited combination of heartwood and sapwood, no face pith allowed. Checks allowed to 1/16" as long as plank stability, weather-resistance, and cosmetics are not adversely affected.

7-11/16" / 195mm
*Dimensional shrinkage after manufacture is possible due to being a solid-sawn wood product.

Prefinish

The semi-transparent linseed oil stain is designed to balance raw, natural beauty with color longevity. It absorbs into the wood, conditioning and enhancing the grain. The linseed finish is an excellent choice for owners who want to enjoy the inherent beauty of the wood as it weathers. The siding can be left to patina or re-oiled at any time to freshen up the color.

Prefinish Options
1 coat + back oil: Coated on face and back only

Prefinish Color
Black

Pressure-Treated Fire Retardant
Not available

Field Cuts
Coat all field cuts and rips with touchup oil

Species

Cryptomeria japonica, a monotypic genus in the cypress family native to Japan. The Japanese name is "sugi", as in yakisugi and "shou sugi ban". In English it is colloquially called Japanese cedar.

Installation Details

For installation instructions see:
nakamotoforestry.com/installation

Overage
Please add a healthy overage ranging 15-25%, as shipping additional material can be expensive

Fastening (Exterior)
Two ring or screw-shank headed face nails or screws per furring strip within 1" of each edge

Substrate (Exterior)
Rigid furring maximum 16" on-center

Installation Layout
Vertical or horizontal, all profiles

Fire Resistance
ASTM E-84 Class B
