

Aluminum Trim Profiles

Use these trims for a polished appearance, efficient installation and to achieve optimal durability. Nakamoto Forestry does not require the purchase of accessories as part of a lumber package. However, accessories used must meet our installation parameters and local code. Always follow manufacturer installation requirements. Extruded trims are not flashing and are not part of a moisture management system. They have a primarily cosmetic function and will not stop all water intrusion into the structure.

Exteriors must be properly sealed and flashed in a shingle fashion to prevent moisture intrusion and buildup. Always have a design professional review project installation parameters relative to your local building code and regional best practices for managing moisture and water vapor in your area.

- 6063-T5 0.050+/- 0.005" extruded aluminum from recycled sources
- Diagrams below are 1:2 scale

Low Profile Outside Corner

Black

SKU# LA58B10 10' length

SKU# LA58B08 8' length

SPECIFICATIONS

- Factory-anodized black
- 5/8" channel
- 8' and 10' lengths

Reveal Open Outside Corner

Black

SKU# RX58B10 10' length

SKU# RX58B08 8' length

SPECIFICATIONS

- Factory-anodized black
- 5/8" channel
- 8' and 10' lengths

Inside Corner

Black

SKU# IW34B10 10' length

SKU# IW34B08 8' length

SPECIFICATIONS

- Factory-anodized black
- 7/8" channel
- 8' and 10' length

Horizontal Z-Bar

Black

SKU# Z58B08 8' length

SPECIFICATIONS

- Factory-anodized black
- 5/8" transition
- 8' lengths

Standard J-Bar

Black

SKU# J58B10 10' length

SKU# J58B08 8' length

SPECIFICATIONS

- Factory-anodized black or primed white
- 5/8" channel
- 8' and 10' lengths
